The Education in Pediatrics Across the Continuum (EPAC) project is an existing proof-of-concept to develop competency-based rather than time-based education, assessment, and promotion. The objectives of the present study are to (1) better understand how clinical performance is interpreted to make entrustment decisions and (2) to describe the impact of entrustment decisions using EPAC as a model.

ENDNOTES. 1 I first proposed and defended the interaction approach for humans in the 1960s. At this time it was generally believed that orientation and identity were solely products of the environment and upbringing (Diamond 1965, 1968, 1995b). Since then I have presented this view many times from different perspectives; see the References for details.
